

# International Baccalaureate

- Focus on preparing students for success in university and beyond
- Opportunity for enrichment in program K-12
- Rigorous academics, complemented with arts, athletics and citizenships
- Develops deep curiosity through asking big picture 'why/how' questions
- Focus on process of learning, with integration of skills and knowledge across disciplines
- Encourages students to actively take learning beyond academic study and into their communities to make an impact
- Develop a passion for lifelong learning, with readiness to thrive in a competitive and ever-changing world
- Students can earn university transfer credit in BOTH programs

# Advanced Placement

- Focus on getting students 'ahead in college'
- Opportunity for enrichment in program for Grades 11-12
- Subject matter expertise—purely academic
- Focus on the 'what' questions
- Subject matter expertise—content driven
- Encourages students to 'study for the test'
- Focus on advanced standing in university
- Students can earn university transfer credit in BOTH programs
